Mr. Shea's activities will be primarily confined to servicing control room equipment although he envisions arising at 3:00 a.m. to perform the vital task of turning on the transmitters and sundry handy-man

Prior to his appointment to the thirty-month term at ELWA, Mr. Shea attended the Mission's candidate school in New York City. Herehe spent a month in introduction to

Mrs. Bach became widely known through her previous production, S. S. Tema and embark on a voyage matics and Bible. He acted as WJSL that will take him from New York station manager for two years and long before "The Miracle Worker" radio station ELWA.

The Sudan Interior Mission owns

The Sudan Interior Mission owns neer, Herschel Ries, via the Amateur Missionary Radio transmitter in Houghton made him aware of the need for replacements of ELWA missionaries on furlough. The pros-pect of applying his technical train-ing in this capacity of foreign missionary was most appealing.

ELWA, whose call letters stand for "Eternal Love Winning Africa," beams broadcasts in approximately forty languages and dialects to all of Africa. By broadcasting several programs simultaneously, the station logs more hours of radio time than are contained in a week. The Sudan Interior Mission has distributed to remote areas pre-tuned radios which can receive broadcasts in four main languages.

Wesleyan missions in Sierra Leone have no extensive radio ministry. Taped programs are sent to ELWA and broadcasted. Mr. Shea hopes to help establish a radio station in Sierra Leone following his two and one-half year term. If this project does not materialize, he expects to return to the United States for further study in graduate school or seminary.

This semester the Star returns with features of previous years and adds columns (see pages 2-5). Watch future issues for further additions. The Star wishes to encourage increased student participation in preparation for its 1964 - 65 journalistic effort. Changes and additions in Star content have Changes opened up many opportunities. Interested persons should contact Star editors or Star, Box 1086.

## The seminar will also feature a group tour highlighted by a news conference with Mr. Fred Holborn, Special Assistant at the White House, on "Current Jerusa and White House, o Current Issues and White House Cies." Also included in the tour Business Office As Ass't

Malcolm (Mac) Cox Coming

Mr. Cox, a history major, graduated from Houghton with the class
of '61. Since then he has been taking graduate work in Business Adis another indication of College
ministration at the University of growth.

Business Office, Mr. Cox will be well board of the Sudan Interior Mission.

From October through February,
he secured finances for his passage
and monthly support for the Sudan
Mission from which he will receive a
salary.

While at Houghton, Mr. Cox was active in most organizations and activities. He played football for four years, worked for the Star as sports editor and reporter, engineered and announced for WJSL, worked on the Boulder and acted as the business manager for the Lanthorn. He was elected student senate president in his senior year. senior year.

His job as assistant to the business manager will primarily be that of purchasing agent and general pro-cessor and coordinator of the student work program.

In March of this year, Mr. Cox will attend a special class set up by the National Association of Educational Buyers Purchasing Institute. This class meets in Washington, D.C. for five days of intensive training.

At an interview, Dr. Smith explained that in addition to Mr. Cox's Coming primary responsibilities, he would "fill Going primary responsibilities, he would "fill in wherever necessary." Knowing the mission program and fulfilled recox, Assistant to the Business Manager.

#### Editorial . . .

### Civil Rights Revisited:

Prior to November 22, the big story of 1963 was that of the Negro. Dear Editor:

In one degree or another, this story dominated news and politics: hamburgers and human chains in the North were paralleled by institution in fire-hosing and the art of small scale war in the South.

We are not members of a southern culture (or even residents of the STAR was more enjoybave be peers problem. Neither are we residents of Northern problem areas. Therefore we have no right to attempt to pass judgments. Instead, we are members of a Christian community in which, it seems, we do not have any of the problems. If this is the case, why? Does our integration into the Christian atmosphere here so fill us with the principles of brotherhood that it removes atmosphere here so fill us with the principles of brotherhood that it removes atmosphere here so nii us with the principles of brotherhood that it removes the problem? How many of us are acquainted with the major goals and objectives of organizations such as the NAACP or CORE? or the latest najor demonstration or even the crusaders for Negro equality? With this general information lacking, we cannot consider "brotherhood" as the answer. Or, does the isolation of our environment exempt us from necessary consideration of the problem and therefore cause an important indifference?

Houghton New York consideration of the problem and therefore cause an ignorant indifference? consideration of the problem and therefore cause an ignorant municipation.

Could it be that because of our isolation we don't know the issues? We don't read the periodicals? We don't feel the pressure? Without a Sir:

knowledge of the problem, we cannot take a stand. The first step, then, is to become informed. Action can follow only from the informed state.

Great Emancipator's birthday the

What should the Christian's policy for action consist of? He must "voteless" Dean's Liaison Committee love his fellow humans. Love can be expressed as in the Golden Rule, or as in the word "respect." Without equal mutual respect, we have lost one concerning freedom, but which, all basis for communication and acceptance between individuals and groups.

As Christians we should be prepared to answer various questions, at be suggested is a free exchange of least for ourselves; what would be our thoughts if we found it expedient to work with, live next to, worship with — even live with — a member of another race? These answers must come from within the individual and will reflect his type of Christianity. Without being informed, we cannot adopt a policy. Without adopting a policy, we are condoning any action by anyone.

be suggested is a free exchange of student ideas on these policies and not an advocary of "fitting molds" like those in totalitarian societies.

Sincerely,

Ronald W. Herlan

### Kaleidoscope

Bachelors have, through the centuries, been known to be leading critics of society. Therefore it is with a touch of respect that we two carry on in the tradition.

Random thought: we offer an ivory "White Horse of Avon," emblematic of courageous common sense, to the first person or group to mount, on the Chapel podium, a sign reading as follows:

To Missionary Speakers:

1) Do not open your address with "It is a joy to be here" or claim that this is the finest place you have ever visited.

2) Do not read Luke 10:2 or sing "From Greenland's Icy

3) Treat your audience as a group of individuals with intellectual integrity. Act as if they could get up and leave. Appeal to the intelligence, not to the emotions; display a perceptive grasp of human affairs, not a great fund of statistics and tearful stories.

Many missionaries are highly outstanding people. By nature, they are rational and realistic. Their chapel talks can be high-calibre, informative evaluations of their country's place in the world. We have heard just enough talks like that to want more.

Houghton society has a definite lack. It is missing a focal point. Naturally, we urge the immediate building of a student center.

There is no recognized place on campus where students can get away from it all with others: no place which the students can call their own. There is no place to go and know that there will be peers present with whom to talk, play chess, pick up a snack or

Paul and Dan

There are the dining halls (too hurried); the Luckey Basement (too cramped); the lounges (all couples – and many of the campus relationships would be better off less serious), and the downtown contingent: Barker's, the Laundromat, the Inn, the Rec Hall (all too remote: the chance of finding friends there is

The lack of a central meeting place has long been recognized. The 1941 Boulder shows a "snack shack" next to Barnett House, but that has since been condemned. East Hall basement was considered as a substitute, but the plan has not been pursued.

The Student Affairs Building has been a step in the right direction, but the complete resolution has been left in the distant future. Were a student center to be the next building project, we would predict a record-breaking fund drive.

We think we are realists, though.

We know that a Science Building is vital and desirable; it will raise our pride in academics here. What we would like to see is a place and a time where individuals can be sure of meeting others: a time for getting acquainted with someone seen in last year's year-book or this year's halls. Wheaton's Co-Rec is an example of the

How about a place on regular Saturday nights where students can get together and listen or not listen, as they choose, to some of the campus musicians, who would be paid from a nominal fee charged at the door. The atmosphere would be entirely casual, entirely low-brow, entirely social.

Saturday evening is a natural time for relaxing; most students find some way to do so. We advocate an opportunity to add the warmth of mixing to one's short collegiate experience.

### Kennan Decries America's "Paralyzed" Foreign Policies

In the November 19th issue of Look magazine, an article written by senior editor J. Robert Moskin entitled. "Our Foreign Policy is Paralyzed," expresses the controversial views on foreign policy held by the noted American diplomat and Russian expert, George F. Kennan. A decidedly independent thinker, Kennan resigned as ambassador to Yugo-slavia because he felt that he was seriously handicapped by a stubborn congress and the Washington bureaucracy.

Kennan is also critical of the says Kennan has come up with three alternatives to the present situation. First, he favors giving the President more freedom of action in making foreign policy. He says that if we do not, we might as well quit and become isolationists, which arises here. Will this mean giving the President an abnormal amount of power destructive of the American system of slavia, some Congressmen were sympathetic with him. However, they told him, "What you say is true, but I don't want' to go back to my district having helped a communist trict work of a few powerful committee leaders should represent American opinion more accurately than the ly anti-communist."

to the public will, but it might result in too frequent changes of govern-ment making the formulation of co-

herent foreign policy difficult.

His third alternative involves arranging a public debate over foreign policy so as to inform the American public of the issues. Kennan hopes that an American viewpoint which would act as a body of instruction

would act as a body of instruction and a body of support to the President can come out of such a debate.

Regardless of whether one agrees or disagrees with Kennan's foreign policy, I think his argument that American foreign policy is inadequate to cope with many world situations are archaic.

poses that a ty" be afforcepts of government to meet the

### "Freedom And Responsibility:" Key Words To Conant's View

Growth, change and societal demands have pointed out the needs — long ignored — for better teacher preparation. The 1957 introduction of the Sputnik era sharply emphasized the current lack in American teacher training curriculums and institutions. Teacher education is today, it is said, in a state of ferment. Since World War II, and especially

Conant, James B. The Education of since 1957, philanthropic organizations American Teachers. New York: as well as educational associations have supported and encouraged rehave supported and encouraged re-search and development of the various educational fields. Dr. Conant suggests that pre-

Dr. Conant suggests that present certification regulations are archaic. In answer to this, he proposes that a "freedom and responsibility" be afforded to each teacher-preparation institution to develop adequate programs for prospective teachers. This recommendation proposes that state control over certification be moved and replaced by academic and professional faculty control. (These proposals are grounds for much of the controversy surrounding the book.) This consideration of both academic and professional faculties is the book's professional faculties is the book's only over panacea-attempt for the eternal debate between "acamedicians' and "educators."

Another part of this "freedom and responsibility," according to Dr. Con-ant, should be the establishment of a state-approved practice-teaching ar-rangement between the institution and a local public school system. Teaching Intern and Fifth Programs have ventured toward a realization of this

In addition to instituting "freedom and responsibility," Dr. Conant proposes improvements in certification requirements; a baccalaureate degree from a legitimate college or universrequirements; a baccalaureau requirements; a baccalaureau from a legitimate college or university, success in a state-approved student-teaching situation and a teaching certificate from an institution with the proposed "adequate program." Canadian and Mexican students. It maintains headquarters and placement offices throughout Western Europe. The ASIS program also offers each job applicant the opportunity to apply for a travel grant ranging as high diagonal and mexican students. It maintains headquarters and placement offices throughout Western Europe. The ASIS program also offers each job applicant the opportunity to apply for a travel grant ranging as high diagonal and mexican students.

tions, has done his job. Educators are left with the biggest task. If Conant's writing fosters even "mere" work at resort hotels, offices, hospitals, thought, achievement of the goal will be near. That goal — to "make a contribution to the public's understanding of a complex subject."

Approx. Development of the subject as \$1,000.

Some of the jobs available include work at resort hotels, offices, hospitals, construction sites, summer camps and farms. Wages range as high as \$400 a month for the highest paying positions in West Germany. Working conditions are the same as those of the furgoreans with whom the student

Chorale in B Major were beautiful. This rather lengthy work demands all the fullness of the organ.

Two chorale settings of Wie soll ich dich empfangen by contemporary composer Ernst Pepping provided delightful listening. Again Miss Mus-ser's clean articulation made these pieces sparkle.

The soft and slow payane, The The soft and slow pavane, Inc Earle of Salisbury, was written by the English Virginalist, William Byrd. This short piece was beauti-fully programmed between the Bach Passacaglia and the Monnikendam Concerto.

#### Burroughs in Recital

An extra-curricular junior recital was given by Miss Marilyn Burroughs, soprano, on Monday afternoon, February 10.

The recital featured music from several periods and was diversified in mood. Miss Burroughs, accompanied by pianist Charles Walker, sang two selections from the Baroque music of George Frederic Handel, "Care Selve", "Let the Bright Sera-phim" and "She Never Told Her Love" by Haydn. "Gretchen am Spinnrad," an art song by Franz Schubert was a dramatic point of the program. Miss Burroughs displayed her flair for operatic literature in her performance of music by Verdi and Puccini.

### Christian Academic Atmosphere Should Stimulate Needed Growth

Editor's Note: Miss Samuelson, ('63), is currently taking courses at the University of Buffalo where she also of full solid chords which Miss Mussinstructs classes in general sociology. Miss Samuelson is a former managing editor of the Star.

BY ELIZABETH SAMUELSON

College is one of the last highly organized learning experiences. Because most of us chose a Christian liberal arts background, we must have sensed the relevancy of this context as adequate preparation for the future. St. Paul was one of the first to link the implications

YOUNG — WHITING

Dr. and Mrs. Francis E. Whiting of Lansing, Michigan, announce the engagement of their daughter, Caroline Mae, (ex '65), to Mr. Ralph F. Young, ('64), son of Mr. and Mrs. Ralph E. Young of Commack, New York.

Dr. and Mrs. Francis E. Whiting of a race, an endurance test, with the functional Christian life. The thought interjected here is that the preparation is not to be for a treadmill endurance test or a race in which the participants are equipped with comically irrelevant horse-blinders.

What is the motivation for contemplation of this race? For some it is evidently a fear of contaminating their bleached white garments in encountering prevalent world.

What is the motivation for contemplation of this race? For some it is evidently a fear of contaminating their bleached white garments in encounters with a prevalent world-view. This fear propells them in a terrihed bee-line through life. Indeed, they press forward over every obstacle, human and otherwise, to an undefined high calling. Or perhaps, as J. B. Phillips has suggested, some are running toward a "meek and mild Jesus" whom they imagine is saying "come unto Me," overlooking the God who is saying "Go in My Name."

Another motivation is the acknowledgement that we don't know all that is expected or implied in the fact that we have been given life. However, among other things it is an opportunity, a start: if we dare.

A danger is that so much time is spent in preparation that the race is never entered. Some stay on the that the race is never entered. Some stay on the sidelines laying aside every weight and imploring others to do exactly the same. The only difficulty is that some of the 'things' carried alone in the race are not weights but assets. The absurdity is evident in trying to run along a stretch of summer sand equipped with skiis or snowshoes — yet these are an unquestionned asset for winter progress. The lack or necessity of whatever is considered for the race is determined by the particular terrain to be covered. There are times when driving a jeep, paddling a canoe, riding in a be obtained by writing to: American Student Information Service, Dept. III, 22 Avenue de la Liberte, Luxembourg City, Grand Duchy of Luxembourg. The cost of this booklet incontext with the situation. Or wearing a diamond ring. Or wearing somber clothes.

It is while running that the worth and necessity is

of pride: tha 'these things.' that we can run because of — or without —

Learning is not reiteration. Spiritual progress is not a verbatim response acquired in the Junior Sunday School Department. Growth is not unfolding; it is

A Christian academic situation is an enviable backdrop for growth. How stimulating it must be as one of the faculty, staff, or administration to have a front row seat, encouraging and supporting the constant drama. Every day a new leading man or leading lady rebells, rejects, and discards past beliefs, and stands on center front stage with a naked soul. What an inexpressible moment to observe!

And then tentative grasping at Truth; and the slow repossession of worthy particles from the past; and a new man is in the race.

To have had a part in this drama by encouraging the necessary change must be a joy balancing the despair experienced when students go through four years with-out any flicker of inner light; showing only reflected

Fortunately, the way of the race is unknown at the Fortunately, the way of the race is unknown at the start. It is known that the way is no highway; usually not even a path. Quite a bit of time will be spent in retracing steps. In learning. Yet, once invoked, there is the Strength to dun. There is a lot of ground to be covered. And mud to dry and be brushed off.

Fortunately, I remember at the start, "the race is not to the swift."

A premier of Dr. William Allen's excellent "Song of Hager" closed the program with distinction.

### Senate Orders Snow For Winter Weekend

Take one snow-laden campus, add energetic and creative students, and mix well for two hours. This recipe promises the competitive snow sculpturing which will highlight the Student Senate's annual Winter Weekedend, Friday, February 28 — Sunday, March 1.

With "Collegia" as its theme, the annual Houghton Snow Carnival has "been expanded this year into a full weekend of campus activity. Friday afternoon, February 28, from 2:00 to 4:00, winter sports competition will begin on the ski slop and at the college rink on the Athletic Field. Play-offs in the skiing and skating events will be conducted Saturday morning, February 29, from 9:00 to 11:00; prizes will be awarded later. On Friday evening the Gregg Smith Singers will present an Artist Series

### Avid Enthusiasts Boost Newest Houghton Sport

With the advent of the 1964 Purple-Gold basketball season, the men's With the advent of the 1964 Purple-Gold basketball season, the men's contests will take on an added aura of competition; that being the Alonso Stagg athletic awards. Initiated in the fall during Houghton's briet football season, these awards, recognizing athletic ability and sportsmanship, will be conferred on the athlete best exemplifying these characteristics in each of the P-G contests. This honor affords the Houghton athlete an opportunity to be recognized for his athletic prowess in addition to his sportmanslike conduct which, although it plays an important role in competition, is not the only phase of the game which deserves recognition. The athletic department will select the player and award a medallion as tanglibe evidence of his honor. Announcement of each winner will be made in

The athletic department will select the player and award a medallion as tangible evidence of his honor. Announcement of each winner will be made in the Star. This award will also be made for each of the color baseball games. Western New York, and more specifically, the Houghton area, has long been fine location for skiing enthusiasts. Yet in the past there were few Houghtonians who could intelligently distinguish between a T bar and a rope tow or who could even locate the various ski centers in this area. But this year Houghton has embarked on a full-scale program from beginner. But this year Houghton has embarked on a full-scale program from beginner up. Free instruction, nominal charges for quality equipment, expanding facilities and weekly trips to Kissing Bridge are a few of this program's fine features. The sudden active interest in the sport on this campus is not, however, "just one of those things." Two individuals, Ralph Olsen, president of the Ski Club, and Dr. Daniel Eastman, advisor of this organization, are the promoters. Working with a co-operative athletic department and financially backed by a sympathetic business department, these two have seen the club progress from a nebulous gathering to one of the most active clubs on campus.

### Pharaohs Anticipate Win In '64 Color Basketball

BY ERNIE CLAPPER

"If we just work together, Purple ing their averages from class ball, will have a very fine team," Coach the result of the game would be 74-Burke stated when asked about the coming best-of-five Pharaoh-Gladiator cage clash.
